Hi, I'm Ankita 👋

Frontend Developer | React Enthusiast

I love building responsive and engaging web experiences. Currently exploring AI integrations and modern UI design.

View Projects

About Me

I'm Ankita, currently pursuing MCA (2nd semester) and have 1.3 years of internship experience in Full-Stack Development. I'm passionate about building user-focused applications using modern technologies. Right now, I'm focused on frontend development with React, while also learning cloud platforms like AWS, Azure, and GCP.

I've completed certifications from Harvard and enjoy building projects that involve AI integrations like chatbots. My goal is to deliver clean UI, responsive design, and meaningful user experiences.

Experience

Frontend Developer Intern

XYZ Technologies

Jan 2023 – Jun 2024

Built interactive UIs with React.js and improved component reusability. Collaborated with designers to maintain consistent visual language.

Freelance Web Developer

Self-Employed

Jul 2024 – Present

Delivered personal and commercial websites with smooth animations, responsive layouts, and SEO optimization.

Services

Frontend Development

Building fast, responsive, and accessible web apps using React, JavaScript, and modern UI frameworks.

UI/UX Design

Designing user-friendly interfaces with a focus on usability, consistency, and visual appeal.

Web Designing

Creating modern, aesthetic website layouts that align with brand identity and user experience best practices.
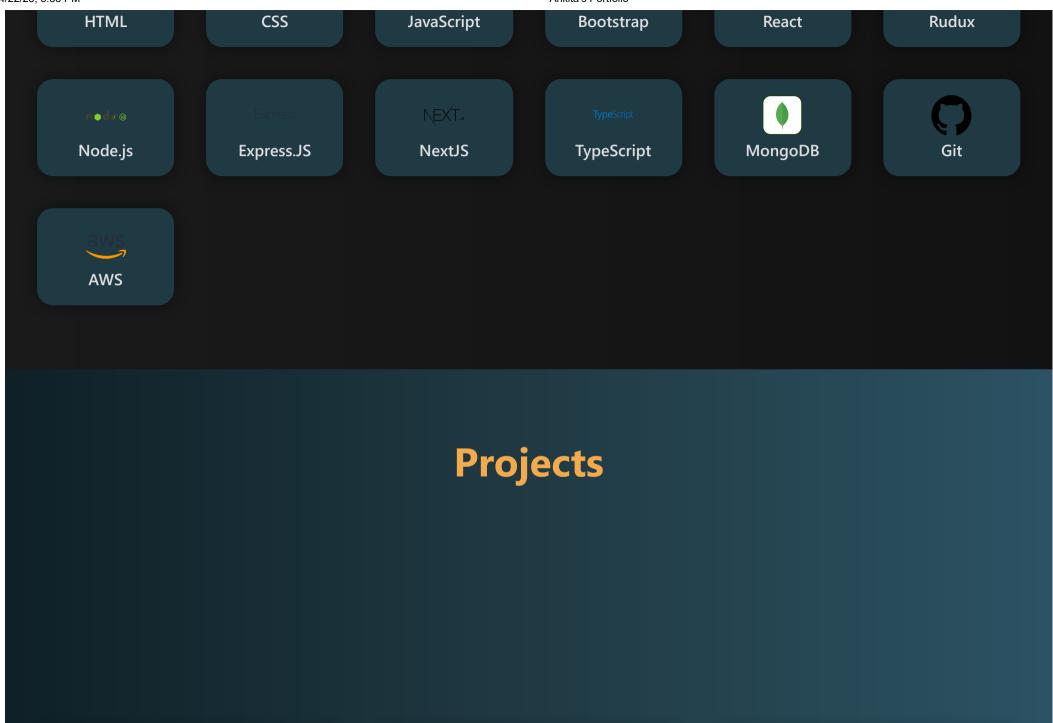

Tech Stack
